## SHARING THE WEALTH IN THE WORKPLACE

By Bob Shemelgian

Casino resorts and other industries that turn the cogs of Las Vegas' fortunes have found that happy employees mean higher profits and happier CEOs in Las Vegas. It's not just the visitors who are having fun. Study after study indicates the world's entertainment capital is filled with places of employment that offer healthy environments for workers.

Local experts in human resources and employee benefits, as well as the employees themselves, agree: These are LVW's picks for best places in Southern Nevada to work in 2008.

**Professional Roofing Services:** When it comes to treating employees fairly and with respect, Professional Roofing Services ranks at the top. PRS owners Tamara and Anthony Cicchetti remark, "Our people are our assets." The couple both left lucrative careers, with Tamara as an attorney and Anthony as senior manager for a regional company, to pursue their vision of providing a new level of professionalism for the roofing business. As such, PRS has positioned itself as a one-stop-roof-shop, offering a unique boutique of services where managers of tile or single-ply divisions, hold the same expertise as a tax or trademark partner would in a law firm. Because of its diversity, the company is able to buy material at lower prices and train crews to be more efficient, therefore, creating financial savings that are passed on to the customer. Providing a higher level of service, in an extraordinarily efficient manner has gained Professional Roofing Services the reputation as Southern Nevada's "most referred roofer."
